MEANWHILE at our headquarters

New bagger allowing us to bag all small elements.

Completion of works for the new reception bays at our headquarters.

Disassembly of the 5400-tonne press in order to accommodate a new, more efficient press.

After several weeks of assembly, the new 6000-tonne injection press is finally operational.

A blood donation, held in our premises with the participation of a large number of employees, was organised in partnership with the French Blood Establishment of Saint Etienne. A fantastic initiative!

Congratulations to the works council for the very successful organisation of our summer meal.

new

Evolution PRODUIT

Desjoyaux

Nouvelle vis injectée pour local technique!

Dans notre démarche d'intégration assurant une indépendance et une fiabilité d'approvisionnement, nous avons conçu une nouvelle visserie injectée permettant le serrage de votre local technique et remplaçant les visseries 09019 VIS MBX20 MH et 09220 VIS MBX25 MH.

avant **après**

Les +

- Sans risque de corrosion
- Sans risque de corrosion
- Plus de risque de rouille de par l'utilisation de la matière plastique.

CAS D'EMPLOI

Les groupes concernés par cette vis sont :

- GRU 181 / 251
- PE 180 / 440
