

Desjoyaux...a swimming pool for life
no stress...just pleasure!

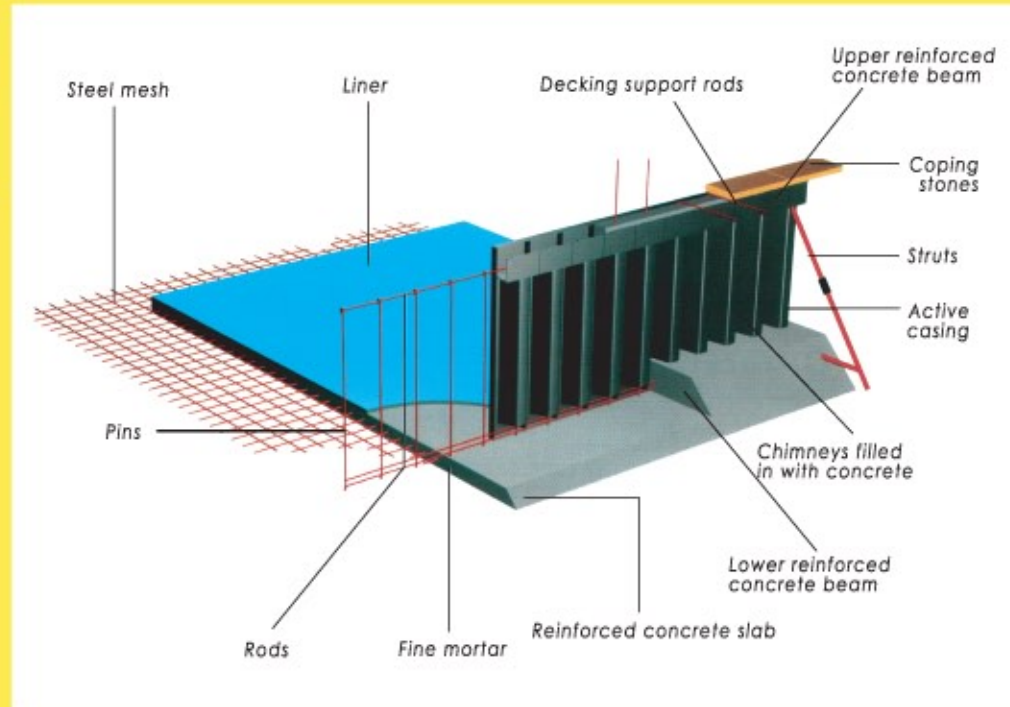

New concept of concrete pool

The Structure

The patented active permanent casing enables pools to be custom made into any size and shape. This self support structure speeds up the construction time (average 2 weeks for a 8 x 4 metre pool) and ensures a sturdy pool for years to come.

Pipe-free Filtration

The Desjoyaux filtration system does not require any buried pipe nor parts to be embedded. No more pump room required.

Designed to simplify pool installation, the filtration unit is surface-mounted and fully independent from the structure, easy to maintain and service.

Traditional Filtration

Desjoyaux Filtration

The filtration unit

The earth may crack but not the structure!
(2003 earthquake in Algeria)

10 years international warranty on waterproofing and structure

Swimming pool optional features:

Hydrotherapy

Cross-Current Swimming

Spa/Massage

Piscines Desjoyaux (M) Sdn Bhd
